Game Shoot Standards

Many CMi customers will be involved in shooting in their leisure time. Over a million people are involved with shooting and many more enjoy the end product... wholesome, healthy food. Shooting is under ever increasing scrutiny and the 'Code of Good Shooting Practice' (CGSP) brings together the high standards expected and adopted by the sport. The CGSP is now incorporated in 'Game Shoot Standards'.

The CGSP sponsoring organisations, representing a cross section of shooting interests commissioned CMi to work with them to draw up an assurance scheme encompassing both large and small shoots. The scheme demonstrates to the general public and official bodies, through an independent audit, that the sport conducts its activities in a responsible manner and to high standards. Securing the good name of a sport which is close to the hearts of many in the farming community is rapidly becoming a priority. Participants can demonstrate to those inside and outside the sport that their shoot operates to high standards and this can only assist in securing the future of shooting.

The Code of Good Shooting Practice is overseen by a Steering Committee comprising representatives of the following organisations:

- BASC
- Countryside Alliance
- Country Land and Business Association
- Devon and Cornwall Association of Sporting Shoots
- Game Farmers Association
- National Game Dealers Association
- National Gamekeepers Organisation
- Scottish Gamekeepers Association
- Game Conservancy Trust
- Scottish Rural Property and Business Association

Please send me details of The Game Shoot Standards Assurance Scheme when available.
